

DATED THIS 24th. DAY OF JULY, 1982 A.D.

BETWEEN:

THE CORPORATION OF THE TOWN OF PELHAM,

- and -

ANTHONY ALKEMADE, 227 Welland Road

I intend to build a small sump in the bottom of the storm water ditch and connect it to my pond with a 4" P.V.C. sewer pipe.

I am convinced this arrangement will provide me with a reliable water supply for my greenhouse.

I am asking that the Town pay my actual construction costs with an upset limit of \$300.00 (Three Hundred Dollars).

I hereby agree to hold the Town blameless for any future water problems I may have if the Town accepts this proposal.
